

Dr. Wong's Team

Welcome to Denver Spine Surgeons. Please let me take this opportunity to introduce you to my team - they work with me both in clinic and in surgery. They coordinate the care of my patients, appointments, paperwork, surgeries and communication with referring physicians, hospitals and imaging centers. We look forward to serving you.

Diane Giusti, PA-C has been working with me since 2006. She received her BS in Biomedical Science from Texas A&M University. She worked in a research position at the University of Texas Medical Branch in Galveston prior to being accepted to the Physician Assistant program there. Diane has experience in primary care, cardiovascular-thoracic surgery, orthopedic oncology including limb salvage, and general orthopedics. She has extensive orthopedic spine surgery experience working previously at the Texas Back Institute. Diane enjoys mountain biking, road cycling, scuba diving, snowboarding, skiing, 4-wheeling and riding dirt bikes.

Lauren Meighan has been with Dr. Wong for the last 5 years and has worked in the medical field on and off for the last 40 years as both a medical assistant and an X-ray tech. Her favorite thing about her job is being able to make meaningful connections with patients and help them to have a positive experience in and out of the office. You may notice from her accent that she isn't a Colorado native, but she has been here for the last 11 years and loves calling Colorado home. She enjoys gardening, and spending time with her two wonderful adult kids, and her husband of 35 years.

Diane Mitchell joined my team in 1997 and has been in the medical field for over 20 years. You will speak with Diane on the phone when you call and see her at the front desk—she handles appointments and billing and coordinates patient records. Diane enjoys meeting interesting people every day in her work, so she is happy to answer any questions you have at any time. Diane has been in Colorado since childhood, and enjoys our state with her family and 2 dogs.

You can reach us via phone or email with any questions or concerns that you have—you can also find more information on our website: www.denverspinesurgeons.com. Thank you for visiting us.
